Baby Terry Wipe

The best reusable baby wipes are multipurpose items you can use for wiping baby's face and hands after meals, as burp cloths and whenever you change baby's nappy. Typically, reusable baby wipes are made from cotton terry, cotton flannel or microfibre - materials gentle on the skin that wash easily and are chemical-free. Before using them, most parents soak them in a boiled water and an essential oil solution so they're ready to use (leave them in an airtight container if possible).

Prefold Cloth Diapers

Affectionately known as "Kamil Textils". These are hard-to-find, top quality, heavyweight 100 % cotton twill diapers. These are the real thing, and so very well made. They are far superior to the store bought kind, and will stand up to repeated washings, but of course no diaper lasts forever so don't believe unrealistic claims. Using prefolds is a very economical way to diaper! It works very well. Plus, they wash and dry very easily and never get that "icky polyester stink". Use a Snappi Fastener, Boingo or pins to fasten it for a very secure fit. Or, just fold the diaper in thirds and place it in a wrap style cover. You will find the "prefold love". We feel these are the very best fabric, 100% Indian cotton, 4-8-4 ply, with the strongest edge stitching available, and custom sized for prefold perfection, exclusive to Kamil Textils.

Towels!

Kalim Textiles Towels are the most delicate fabric to be placed in a hospitality industry. It defines the royalty provided by the firm, whether a restaurant, hotel or even a hospital. We provide selection of color, fabric, printing and packaging of your custom towels to match the needs and theme of your organization.
